

Running, Shifting and Positioning Tools

2 Type R Running Tools

Type R Running Tools are used to set R ,RN, and RQ Lock Mandrels in their respective Landing Nipples. These tools are similar in design to nipple locator dogs, serving to locate the proper landing

nipple and positioning the lock mandrel before locating and locking. By selecting the position of the running tool, the lock mandrel keys may be placed in the locating or retracted position.

Available tool sizes as shown. Please contact our sales office for further enquiries.

To Suit Lock Mandrel Size	Tools O.D.	Fishneck O.D.	Top Connection	Bottom Connection
