

Running, Shifting and Positioning Tools

4 Type Z6 Running Tool

Type Z6 Running Tool is a wireline service tool used to run and set type 'DB'Series locks into their respective nipples located within the well bore. Type Z6 Running Tool incorporates a tell tale garter spring

to give positive indication that the lock mandrel has been set properly.

Available tool sizes as shown. Please contact our sales office for further enquiries.

Nominal O.D.	Tools O.D.	Fishneck O.D.	Top Connection
