## SMJ-D RETRIEVABLE PACKER

Model SMJ-D Retrievable Packers are used for perforating, production, stimulation and testing applications. The hydraulic hold down is below the pressure equalization valve. "J" slot structure makes it easy and reliable to set and release.

### Features:

- Sets securely in any hardness casing, including premium grades
- Long carbonized friction pads act independent of slips and allow trouble free passage through collar and recesses and stage tool profiles.
- Three piece packing element system
- Hydraulic hold down
