

## SHC PACKER (Y341)

The SHC Packers is used in injection, formation fracturing, acidizing and squeeze cementing. It has hydraulic setting, and can be used solely or with other packers as a combination. Hydraulic anchor is recommended with the string to enhance the stability.

### Features:

- Sets securely in any hardness casing, including premium grades
- Suitable for highly-deviated well
- Hydraulically activated, hydrostatic set
- Built-in bypass
- Triple seal multi-durometer elements
